

EHTHISHAM UL HAQUE K

Software Developer | Manual & Automation Testing (Web & Mobile)

89033 80595 @ ehthishamk004@gmail.com linkedin.com/in/ehthishamk Chennai

EXPERIENCE

Software Development Intern

Zidio Development

06/2025 - 07/2025 Bangalore

- Performed manual testing and wrote test cases for MERN stack (MongoDB, Express.js, React.js, Node.js) web application features, identifying functional defects before release
- Automated repetitive UI test scenarios using Selenium WebDriver, and used Postman to validate REST API endpoints, response data, and status codes
- Built and maintained reusable React components for dashboards and analytics views, then verified data accuracy across UI states
- Logged, tracked, and verified bug fixes during development cycles, ensuring features met functional requirements before deployment
- Delivered Excel-based analytics features with Chart.js, validating calculated metrics against raw source data for accuracy

EDUCATION

Master of Computer Application

Anna University

07/2024 - 06/2026 Melvisharam, Vellore

CGPA

8.57 / 10.00

Bachelor of Computer Application

Thiruvalluvar University

06/2021 - 05/2024 Melvisharam, Vellore

PROJECTS

AI-Based Time Table Optimization System

2026 - 06/2026

- Developed an AI-based system to automatically generate academic timetables and designed test scenarios verifying scheduling logic avoided class/room conflicts
- Performed functional testing on scheduling and resource-allocation algorithms across multiple input combinations, and tested the UI for usability and data consistency

Education Management System

2025 - 03/2025

- Built a web-based academic management platform for student records, courses, attendance, and examination data, with manual test cases covering core workflows
- Designed and validated relational database structures (MySQL), testing data storage and retrieval accuracy, and conducted UI/responsiveness testing across devices
- Verified centralized record management features through functional and regression testing to confirm reliable administrative workflows

SUMMARY

Software Developer with hands-on experience in full-stack web development and software testing, including manual test case design, functional and regression testing, Selenium-based UI automation, and API testing with Postman. Combines strong development fundamentals (React.js, JavaScript, PHP, MySQL, MongoDB) with a quality-first mindset, enabling faster defect identification, clearer bug reporting, and better collaboration between development and QA teams

SKILLS

Testing

Manual Testing

Selenium WebDriver

Postman (API Testing)

Web

React.js

HTML G CSS

Database

MySQL

MongoDB

Soft Skills

Problem Solving

Communication Skills

Analytical Thinking

Team Collaboration

Time Management

Adaptability

Quick Learning Ability
