

EHTHISHAM UL HAQUE K

Software Developer

ehthishamk004@gmail.com | +91 89033 80595 | Chennai, India

LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Software Developer skilled in building full-stack web applications with React.js, Node.js, and MySQL/MongoDB. Experienced in REST API integration, database design, and writing clean, scalable code.

TECHNICAL SKILLS

Programming Languages: JavaScript, Python, PHP

Frontend Development: React.js, HTML5, CSS3

Backend & APIs: Node.js, Express.js, REST API Development

Databases: MySQL, MongoDB

Tools & Version Control: Git, GitHub, Postman

Testing Tools: Selenium WebDriver, Postman (API Testing)

Artificial Intelligence: AI Fundamentals, Genetic Algorithm Basics, Prompt Engineering, AI-assisted Development (ChatGPT & Claude)

EXPERIENCE

Software Development Intern

Jun 2025 – Jul 2025

Zidio Development

Bangalore

- Developed and maintained reusable React.js components for dashboard and analytics interfaces, ensuring consistent data accuracy across multiple UI states
- Integrated and validated REST API endpoints using Postman, verifying response payloads and status codes to ensure reliable communication across MERN stack features
- Built Excel-based analytics features using Chart.js, transforming raw datasets into visual dashboards to improve data interpretation for end users
- Automated repetitive UI validation workflows using Selenium WebDriver, reducing manual effort and turnaround time during development cycles
- Debugged and resolved functional defects across MongoDB, Express.js, React.js, and Node.js components, collaborating closely with developers to deliver stable releases

PROJECTS

AI-Based Timetable Optimization System

2026

React.js, JavaScript, MySQL

- Developed an AI-based scheduling system to replace slow, error-prone manual timetable preparation for academic departments
- Designed conflict-detection logic using genetic algorithm concepts to automatically resolve classroom and faculty allocation clashes
- Implemented a responsive React.js interface, enabling staff to generate and review schedules across multiple input scenarios
- Optimized data validation across the scheduling engine, ensuring consistent, conflict-free timetables for administrative teams
- Delivered a working prototype that reduced manual scheduling effort and gave department staff a faster, reliable planning tool

Education Management System

2025

PHP, JavaScript, MySQL

- Designed a full-stack academic management platform to centralize student records, attendance, courses, and exam data for institution staff
- Implemented relational database structures in MySQL, ensuring accurate storage and fast retrieval across student and course modules
- Built responsive interfaces tested across devices, improving usability for non-technical administrative users
- Integrated core modules into a single system, replacing fragmented record-keeping with one centralized workflow
- Delivered a reliable platform that reduced administrative overhead and improved accuracy of academic record management

EDUCATION

Master of Computer Application

Jul 2024 – Jun 2026

Anna University

CGPA: 8.57 / 10.00

Bachelor of Computer Application

Jun 2021 – May 2024

Thiruvalluvar University

SOFT SKILLS

Problem Solving • Analytical Thinking • Communication • Team Collaboration • Adaptability • Time Management
Attention to Detail • Quick Learning Ability

CERTIFICATIONS

- Python Programming – Cisco Networking Academy
- Complete React JS Course - Udemy
